

# Big White Winter Rally

## Competitor Bulletin 2

Issued: Friday, December 4, 2015

### **Bullet Stage Shortened**

After some deliberation, we have decided to shorten the Bullet stage at the start for safety reasons. The new start position is marked, and is at the start of the section with the significant exposure. Please make note of this exposure and drive accordingly.

Add to the route book:

Page 20 and 37, Instruction 8 !!! Caution Medium R TIGHTENS, exposure on left !!!

### **Added note on Falcon Express**

Page 67 and 85, 26.79 km, Right over Cr, past ROL Spectators Radio

### **Leg 3 Schedule correction**

On page 6, the stage names for the stages in Leg 3 should be:

SS 7 – Gem Lake South 2

SS 8 – Falcon Express North 2

### **Reseed/regroup Controls and start of Stage 5 and 7**

While we are not holding the cars in an official regroup after either service, we strongly recommend waiting in the parking lot, after refueling, until your assigned regroup out time. This will have you leave the Westridge parking lot in the correct start order.

The stacking area outside of the control zone for the stage 5 and 7 start is extremely tight for space so changing order while stacked at the control zone may cause challenges.

When parked at the stage start, please ensure you leave enough room for vehicles to get past if needed.
